Professional Summary

Software Engineer with 2+ years of experience delivering enterprise applications using C#, ASP.NET, Oracle, and SQL Server. Automated 50+ business reports, optimized 100+ SQL queries, and contributed to multiple enterprise software releases. Passionate about building scalable backend systems, solving complex database challenges, and delivering business value through technology.

Experience

- Management Systems (Pvt) Ltd** Colombo, Sri Lanka
Junior Software Engineer Mar 2024 – Present
 - **Application Development:** Developed and maintained 3+ enterprise web and desktop applications using .NET technologies.
 - **Reporting & Analytics:** Designed and automated 50+ Crystal Reports, reducing report preparation time by 60%.
 - **Database & Validation:** Executed and optimized 100+ complex SQL queries, improving data validation accuracy and reducing troubleshooting time.
 - **Testing & QA:** Conducted end-to-end testing for multiple releases, helping reduce post-release defects by 30%.
 - **Collaboration & Support:** Collaborated with cross-functional teams to deliver 10+ software enhancements within project deadlines.

Projects (Click titles to view repository)

- Job Portal (Personal Project - Ongoing)** Full Stack Developer
Asp .Net core Web API, SQL Server, Next.js, TypeScript
 - **Backend & Database Integration:** Built RESTful APIs using ASP.NET Web API and integrated SQL Server for efficient data storage, retrieval, and management of users, jobs, and applications.
 - **API Security & Performance:** Secured endpoints with JWT Bearer authentication and implemented data validation, error handling, and optimized database queries for improved performance.
- Inventory Management System (Personal Project)** Full Stack Developer
Html, Css, JavaScript, Node JS
 - **User & Role Management:** Enhanced a secure role-based access control system for managing users, permissions, and administrative access across the inventory platform.
 - **Backend & Database Integration:** Improved RESTful APIs and connected MongoDB for efficient data storage, retrieval, and transaction management.
- Book Management System (Personal Project)** Frontend Lead 2025
Word Press
 - **Book Management:** Expanded a web-based system for managing books, including cataloging, categorization, and efficient tracking of book records with a user-friendly interface.
- Quick Job Android App (Group Project)** Full Stack Developer
Kotlin
 - **Job Management:** Established a job portal application that allows users to search, apply, and manage job opportunities through a centralized platform.
 - **UI/UX Design:** Devised user-friendly mobile interfaces to improve accessibility, navigation, and overall user experience.
 - **Application Tracking:** Built features for managing job applications, user profiles, and job posting activities efficiently.
- Online Event Management System (Group Project)** Frontend Lead
Java, Html, CSS, JavaScript
 - **UI Implementation:** Structured and coded the complete frontend user interface (UI) for the entire application, creating a seamless citizen-centric reporting experience.

Technical Skills

- **Programming:** C#, JavaScript, TypeScript, Java, Python, Kotlin, SQL, PHP
- **Frameworks & Tools:** ASP.NET Core, React, Node.js, Spring Boot, Git, GitHub, GitLab, Flask
- **Cloud & DevOps:** AWS, Azure, CI/CD, Docker
- **Architecture & APIs:** REST APIs, JWT Authentication, Microservices
- **Databases:** Oracle 11g/19c, PostgreSQL, MySQL, MongoDB, Firebase, Microsoft SQL Server
- **Design:** Tailwind CSS, Figma, Canva, Photoshop, WordPress

Education

- Sri Lanka Institute of Information Technology (SLIIT)** Malabe
BSc. (Hons) in Information Technology 2025
- AAT Sri Lanka** Narahenpita
AAT Passed Finalist 2021
- Yasodara Vidyalaya** Colombo
G.C.E. Advanced Level - Commerce Stream (1A, 2B) 2019
